How do I view the boundaries of the Geographies I have selected (Map It)?

1. Select Your Geographies
   - Select **Geographies** from the Main or Search page. The Geographies Search overlay opens and sits on top of your Search Results.
   - Type the name of your Geography in the Geography textbox. For example, type “all counties within Delaware.”
   - Click “GO.”
   - Select a Geography by clicking on the hyperlinked Geography Name. It is now added to “Your Selections.”

2. Display the Boundaries for “Your Selections”
   - Click on the Map Tab. A map of your Geographies is displayed.
   - Note the Geographies selected, and the boundaries displayed.
